My wishes were not expressed accurately in the Greenpeace communication. I am not opposed to nuclear power, far from it. I consider it to be a clean power option, and with the eventual adoption of G4 reactors, it is a way to cleanse our planet of the radioactive wastes we have accumulated.

Thanks!

Dear Public Service Commission,

Duke should quit investing in dirty, old energy like coal and nuclear, and actually invest in the cheaper renewable technologies its executives claim to support. I want the Carolinas to be more energy efficient and powered by local wind & solar that will employ thousands of Carolinians.

Sincerely,

John Emerson
